

MBC-101

AUTOMATIC BOTTOM CEMENTER, Model MBC-101 PUR HOT MELT

The new, enhanced MBC-101 is available for PUR hot melt spray applications.

The MBC-101 can be linked to a Nordson Drum Melter. This is a platen melter which takes a 20kg can and melts adhesive on demand, making it suitable for high usage applications.

Commercial installations using the MBC for PUR application have highlighted the major benefits of the system compared to solvent adhesives, namely:

- * Lower costs
- * Improved bond strength
- * Environmentally friendly

Electrical Service	208-240V, 10A single phase, 50/60 Hz, 3 kw
Air Consumption	0.028 SCFM at 200 pr/hr.
Air Pressure	80 lbs/in (5.6 bar)
Weight	1290 lbs. (585 Kg.)
Dimensions	33"w x 51"d x 61"h (830 x 1300 x 1550 mm)
